

2103 Acceptable Use Policy

Purpose

Maeser offers students and employees access to electronic and network resources for appropriate educational use.

The Internet provides students access to massive amounts of educationally useful information. Some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate, obscene, or offensive. However, Maeser provides Internet access to further its legitimate educational goals.

Maeser uses filtering software to limit student exposure to inappropriate materials; in addition, teachers monitor classroom use of the Internet to the best of their ability. However, no filtering and monitoring system is capable of blocking 100% of the inappropriate material available on the Internet.
