

3207 Uniform Policy

1. Authority
 - a. Pursuant to Utah Code Ann., 53g-7-802, Maeser hereby adopts the following uniform policy. This policy does not include any additional opt-out provision, except as authorized by the Utah Code referenced above.
2. Purpose
 - a. Maeser believes that education is a serious and consequential endeavor. School is a place apart where students can converse with sages of the past, grapple with the issues of today, and wonder at the mysteries of tomorrow. In times past, students, scribes, and scholars wore distinctive clothing to set them and their academic activities apart from their regular daily activities. Judges, doctors, athletes, soldiers, and firefighters all wear uniforms when performing their specific duties. Maeser students likewise wear a uniform to acknowledge that they are serious about their academic responsibilities. Wearing clothes that are different from a student's normal, everyday attire indicates that there is something serious and consequential about what they are doing.
 - b. Additionally, uniforms help students acquire and refine critical skills by creating a safe and orderly classroom environment. Specifically, uniforms:
 - i. Help students to focus on their worth as individuals and their role as members of the Maeser community of learners and to avoid identifying self-worth with style of dress.
 - ii. Help students to dress modestly and to respect each other as individuals whose thoughts, speech, and actions determine their influence on others and their value to the community.
 - iii. Help students concentrate on schoolwork by setting a tone for serious study. Because uniforms are standard attire in many academically rigorous secondary schools, their adoption signals high academic expectations to students.
 - iv. Remove distractions created by socioeconomic differences and shifting fashions.
 - v. Assist administrators, faculty, staff, parents, and students in instantly recognizing intruders.
 - c. Uniforms assist students in the development of discipline and a sense of community necessary for successful Socratic instruction. Specifically, uniforms:
 - i. Build self-esteem, self-respect, and school spirit among students by creating the distinction of being part of an identifiable group and by aiding in eliminating class and socioeconomic distinctions among students.
 - ii. Generate a positive school image in the community through students' orderly, neat, and characteristic (instantly recognizable) appearance.
3. Enforcement
 - a. Enforcement of the uniform policy is the responsibility of the school community including students, teachers, and school administrators. Students have the primary responsibility to honorably adhere to the uniform policy, as they have committed to do. Teachers have responsibility to teach, monitor, and enforce the school uniform policy in the classroom and to encourage students to police themselves and their peers. School administrators have an obligation to enforce the uniform policy and to encourage teachers and students to adhere to and to enforce the uniform policy.
 - b. Enforcement of the uniform policy will be as follows:

- i. If a student is not in uniform, they will receive a uniform violation.
 - 1. Students who receive uniform violations must rectify the violation before returning to class.
 - a. Parents may be contacted to bring any missing uniform items to their student.
 - ii. On the third (3rd) violation, parents will be informed.
 - iii. On the fifth (5th) violation, the student will be suspended from school for one school day..
 - iv. On the tenth (10th) violation, a disciplinary hearing will be held, which may lead to expulsion.
 - v. Additional consequences may be assigned by the Administration at the discretion of the school's Director. The School Board, as necessary, will also enforce the uniform policy as outlined in the school's discipline policy.
4. Opt Out
 - a. The Administration will carefully consider all requests for exemptions. All requests for an extenuating circumstances exception to the uniform policy should be accompanied by appropriate documentation from relevant physicians or other healthcare providers, religious authorities, etc. The Administration will develop individual dress guidelines which, insofar as possible, approximate the approved uniform for each student who receives an exemption from the required uniform.
5. Dress Code
 - a. Students must present a modest, clean, and neat appearance at all times. Uniform items must be in good repair.
 - b. Clothing
 - i. Items listed as "required" under the "Full Dress Days" section must be worn on school days or occasions which are designated as "Full Dress Uniform." Only items from the "Full Dress Days" section may be worn on Full Dress Days. Besides regularly scheduled Full Dress Days, other Full Dress occasions will be announced via appropriate school communication channels, and may include assemblies, special guest visits, field trips, etc.
 - ii. Items listed in the "Regular School Days" section may be worn on all school days except Full Dress Days.
 - iii. With the approval and at the discretion of the Administration, "Spirit Days" may be allowed. On Spirit Days, an approved Spirit Shirt may be worn, but all other uniform items remain the same, unless specifically authorized by the Administration.
 - iv. Uniforms must be worn when students are on campus. Normally, students should wear school uniforms for official off-campus activities, such as Winterim, extra-curricular programs, and field trips. The Administration may designate exceptions.
 - 1. As outlined in its charter, Maeser will supply free uniform items (either new, used, or a combination) each year to each student whose family income would qualify him or her for the Federal Free Lunch program.
 - 2. Students will be permitted to wear non-uniform items which are required by their religious beliefs. For example, hijab, yarmulke, etc. are permitted, except that the face must remain uncovered even if an additional covering is typical to particular religious beliefs or practices.
