

2111 Home and Hospital Policy

1. When students are temporarily unable to attend school due to emergent medical conditions, a Home and Hospital plan can help provide time, space, and resources for the educational support of students.
2. Initiating a Home and Hospital Plan
 - a. A Home and Hospital Plan may be initiated under the following conditions:
 - i. A student has a chronic medical issue that prevents the student from regularly attending their normal schedule.
 - ii. The Home and Hospital Plan must be approved by Administration in coordination with School Counselors and the student's parent/guardian.
 - iii. In order to create a Home and Hospital Plan, the school requires valid medical documentation from a licensed medical provider.
 - iv. Medical documentation should include:
 1. Medical diagnosis, when appropriate;
 2. Acknowledgement or recognition that the student's medical condition prevents the student from attending their regular classes;
3. A Home and Hospital Plan may include the following options:
 1. Maeser Online courses;
 2. Live Streaming of regular Maeser classes through Google Classroom;
 3. Utah's SEATS program;
 4. Other options as approved by Administration.
4. Maeser counselors will maintain the Home and Hospital plan and will communicate progress and updates to parents.
